About Us

Solo Aviation is a pioneering leader in the aviation industry, offering a vertically integrated, full-service management platform. We specialize in FAA Part 91 aircraft management, Concierge FBO services, and FAA Part 145 repair station & avionics services. Furthermore, Solo Aviation provides comprehensive flight training through its Flight School brand under Part 61 utilizing Part 141 structure, with options for private financing or collegiate-level education, delivering complete solutions for every facet of aviation.

At Solo Aviation, safety is our utmost priority. Our team is composed of highly skilled, experienced, and dedicated aviation professionals. We are committed to ensuring that every client's experience with us is not only exceptional but also leaves a lasting and positive impression.

Flight Training

Flight School Flight Training offers a wide range of programs tailored to meet the unique needs of each student. Whether you're seeking an Accelerated Commercial Program, an aviation degree through a university, or prefer a flexible, Pay-As-You-Go approach, Flight School has the solution for you.

Flight School's Professional Pilot Course is a privately financed pathway designed to be completed in around 12 months. The program includes obtaining your Private Pilot certificate all the way to your Instrument Instructor rating. Students can finance testing fees, supplies, and additional account funds as needed. Flight School ensures the highest quality training with access to a fleet of technically advanced aircraft. All these services are offered at a competitive cost, ensuring that students receive exceptional value for their investment.

Flight School students can enroll with Purdue Global or Jackson College in conjunction with their Professional Pilot Program or their Pay-As-You-Go training, where they will benefit from earning a degree. Through this partnership, students will earn their Private Pilot Certificate and continue their flight training to obtain their Flight Instructor Certificates, all while completing coursework with Purdue Global or Jackson College. Upon earning their Flight Instructor Certificates, students become eligible for instructor positions with Flight School, allowing them to accumulate the 1,500 flight hours required for a career in commercial aviation.

Financial Aid

Stratus Financial was founded by FAA Certificated Flight and Ground Instructors passionate about helping others achieve their aviation dreams. We know it's not just about achieving your dreams (because we looked up in the sky every time, we heard an airplane too!) but funding your family's dreams as well. That's why Stratus was created, because with Stratus, the sky is no longer the limit.

Your aviation dreams start here. You're not just a number, and it shows with Stratus. We look beyond the typical FICO scores and look at you as a whole aviator. We want to set you up for success before you even apply with us!

We offer exceptional lending packages, including:

- The best rate you'll get anywhere to go from zero to hero!
- Full financing for your entire flight training and more
- Affordable payment options, including deferment for 12 months while you complete your training AND find a job.
- Pay your loan off any time you want with no consequences or penalties whatsoever.
- Counseling with our team of flight instructors and ground instructors to support you through flight training, check rides, and interviews with airlines.
- Resume reviewing, editing, and building
- AMA Phone Calls with Pilots in the 121 and 135 Industry – What It's like, How They Got Their Job, etc.

We look forward to helping you achieve your aviation dreams and seeing you in the sky!
